INFORMATION

Criteria6 : Governance, Leadership and Management

Key Indicator : 6.5 Internal Quality Assurance System (IQAS)

Metric : 6.5.3

Metric Description : Incremental improvements made for the preceding five years with regard to quality (in case of first cycle NAAC A/A)
Post accreditation quality initiatives (second and subsequent cycles of NAAC A/A)

Describe quality enhancement initiatives in the academic and administrative domains successfully implemented during the last five years within a Maximum of 500 words for either

The University's incremental activities across teaching, research, and extension reflect its commitment to enhancing agricultural practices and addressing contemporary challenges in the sector.

Teaching: Revision of Curriculum by placing the items in the Board of Studies and Academic Council. Based on the feedback from faculty and students UG and PG syllabi, including hands-on training and the Rural Work Experience Program have been revised and upgraded. The instruction halls have been modernized with smart classrooms. The revised instruction methods are helping the students to be equipped with relevant skills and knowledge. The examination and evaluation system has been revamped with an online mode for better transparency, accountability and efficiency.

Research: The university emphasizes research that addresses both local and global agricultural challenges. This includes work on crop improvement, pest management, soil health, and sustainable farming practices. Many MoUs have been signed for collaborative research projects with national and international institutions, government agencies, and industry partners. These collaborations enhance research capabilities and facilitate the exchange of knowledge and resources University also invested in state-of-the-art research facilities and laboratories support advanced research activities. Many technologies and crop varieties have been released and the package of practices for crop cultivation has been revised with updated information.

Extension: The university is extending its expertise to rural communities through extension programs with the help of Farmer's training institutes, KVKs and other extension units that offer practical advice and support on agricultural practices. The activities included training sessions, demonstrations, advisory services, the annual Krishimela, field days, TV and radio talks and online resources. Feedback from farmers and the State Department of Agriculture has been processed and used for need-based research. With the support of the Academic, Research, and Extension Councils, the University continually monitors and updates its activities to meet evolving needs. This ongoing improvement has led to significant gains in national recognition and the University's overall ranking.
